

GENERATIVE AI

APPLICATION DEVELOPER

Creating Advanced Applications and Intelligent Chatbots Using **Generative AI**

- Introduction to Generative AI
- Understanding Large Language Models
- Natural Language Processing (NLP) with Generative AI
- Image Generation and Manipulation
- RAG and Vector Databases
- Prompt Engineering and Generative AI Frameworks
- Exploring Notable Generative AI Frameworks and Tools
- Integrating Generative AI into Applications
- Ethical Considerations and Best Practices
- Future Trends and Advanced Topics

- ✓ CLOUD LABS
- ✓ DEDICATED MENTORS
- ✓ FLEXIBLE BATCHES
- ✓ USE CASE DISCUSSIONS
- ✓ LIVE PROJECTS
- ✓ PLACEMENT ASSISTANCE
